## Greetings

Greetings from the farm,

Wild Heaven Farm has been producing handmade, natural skin care products on a small family farm in Central Virginia for over five years. Our products incorporate only the freshest, locally farmed goat milk and the pure base oils, combining to produce a superior product that includes no artificial colors or preservatives. Wild Heaven Farm soaps and skin care products are ideal for people with sensitive skin, and for those who desire soft, natural feeling skin.

Wild Heaven Farm prides itself on the handmade processes it uses to manufacture its products, from hand raising of baby goats, through to hand milking and all natural production of the finished product. Wild Heaven Farm feels this process not only minimizes the possibility of impurities contaminating the product, but also fulfills our commitment to the welfare and well-being of our goats, and provides an “organic” quality to our finished product. Ingredients are purchased from other local small businesses whenever possible.

Through our website, farmers’ market and local event stalls, and various retail outlets we have been successfully providing a natural alternative to our customers. Ordering and purchasing is made easy through our website, and we can ship products anywhere around the world. We have sold products all over the United States and the world, as far away as Japan and Australia. We are also able to fill custom orders, made to suit whatever your requirements may be.

Wild Heaven Farm is committed to its product and its production processes, but above all, believes that our product is a beautiful and fragrant addition to any bathroom. Try them and you will see that our milk-based soaps and other products provide an excellent, well priced alternative to mass produced and artificial competitors. Just one use of our product and you will be convinced.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Kroll". The signature is fluid and cursive, with the first name "Mary" and last name "Kroll" clearly distinguishable.

Mary Kroll

Wild Heaven Farm

## Our Soaps

Every day at Wild Heaven Farm begins with hand milking registered dairy goats for the most important ingredient in our handmade soaps. Goat milk is chemically compatible with human skin and helps your skin to retain its own moisture. Adding milk to our soap lowers its pH, which helps to maintain the natural pH of healthy skin. Goat milk is also a natural source of Alpha-hydroxy acids. On the ‘soap’ side, the base recipe is made up of equal parts palm oil for a harder, longer-lasting bar, coconut oil for good lather, and olive oil to be gentle and moisturizing. The base recipe for all our soaps is 21.5% goat milk.

Our soaps, as with our other products, have the duality of being both gentle and effective.

### We use

- Fresh, pasteurized goat milk
- Pure base oils
- No colorants
- No preservatives
- No animal-based oils
- No alcohol
- No animal testing! (our soaps are tested exclusively by human volunteers)

### Some of our most popular varieties include

- Castille-style (unscented and extra moisturizing)
- Chai Tea
- Honey and Oatmeal
- Lavender Lady
- Mint in the Morning
- Peaceful Patchouli
- Seaside Rendezvous
- Sexy Peach
- Spring from our Farm
- Tough Enough (with pumice, our “Lava”)
- Vanilla Bean
- Wild Honeysuckle

## Prices and Purchasing

Wild Heaven Farm proudly offers simplicity and convenience. We offer our unique products with our own label, but also allow for the customization of labels, and the customization of the soap bar itself. Wild Heaven Farm is also happy to work with customers to design custom fragrances for our products, especially to suit specific needs, such as allergies or skin conditions. Because ours is a small company, we are able to give your order the attention it deserves.

All of our products can be via e-mail, over the telephone, or by regular mail. We also offer the convenience of credit cards.

### Wholesale Pricing

Remember, we never have a minimum order size. Your delivery options are USPS shipping, hand delivery, or pick-up. Feel free to ask about custom fragrances, shapes, products, etc.

## A Few Words from Our Customers

“...if you like Bath & Body Works, High Quality Natural skin products and wonderful fragrances then you will absolutely LOVE this! ... they have got to be the best, highest quality products that I have ever had the opportunity to use. The fragrances are out of this world and the soaps are better than any natural soap product that you can get anywhere!”

*T. Rubenstein, Nashville, TN*

“For a homemade soap, yours lathers better than most commercial bars and smells better than most specialty bars. On the first day of the festival, I bought 3 bars, and had to come back on the next day and buy 2 more! They have a fresh scent that follows you, it doesn't wash away! The residue does! I have never felt so clean and moisturized at the same time! (better than Zest!)”

*J. Armes, Blackstone, VA*

I have extremely dry skin & therefore must be very careful about the products I use ... I am therefore pleased to discover a product I can & will continue to use. One that does not violate my ethics where testing is concerned and that is an all natural product without manmade additives. I am extremely picky about the products I use and am not swayed by the ads on T. V. touting products in pretty packaging. Thank you for keeping your product simple & pure and within a price range where normal people can afford to purchase them“.

*M. Thomas, Sandston, VA*

“I stopped by your booth ... and purchased your mint in the morning goats milk soap. ... I was impressed with the lather and the aroma. I felt like I was in a cup of mint tea. It left my skin feeling like a new born baby. The natural alpha hydroxy element in the soap worked much better than the expensive alpha hydroxy I purchased from the drug store to help erase the aging process that has crept up on my face. Please send me more.”

*C. Dixon, Beaverdam, VA*
